### Experience and Expertise

Marilyn began her bookkeeping career over 20 years ago when she started a news research business and took charge of all accounting and payroll functions, as well as the development of the company. While growing the company she continued to manage the books and work closely with her outside CPA firm.

In 2014 she began providing accounting services to a wide variety of businesses, in retail as well as service industries, on a part time basis and quickly advanced into full time positions as bookkeeper, accountant, and controller.

As a QuickBooks® ProAdvisor®, Marilyn works with clients and their staff members on how to gain the most value from their accounting software.
